- Protect DNA, proteins and lipids from oxidative damage.
- Maintain good vision.
- Maintain healthy skin teeth, bones and hair.

MANGOSTEEN SUPERFRUIT POWER:

Mangosteen is a rare superfruit found primarily in Southeast Asia and known as *Garcinia mangostana* to the scientific community. No relation to the mango, it has been hailed as the “Queen of All Fruits” and has been used for centuries by Asian health practitioners to treat a variety of health conditions.

Of all the known sources for xanthones, the mangosteen supplies some of the highest amounts found in nature. Xanthones are biologically active phytonutrients with very potent antioxidant properties. The mangosteen in Vemma is wildcrafted, which is the practice of harvesting plants and fruits in their natural or “wild” habitats, where pesticides are not typically used. The wildcrafted mangosteen fruit is then utilized in Vemma’s proprietary extraction process. Pioneered by Vemma’s Chief Scientific Officer, Yibing Wang, M.D., Ph.D., this intricate method helps ensure that the highest levels of nutrients are included in the Vemma formula.

*The **Vemma Formula Inside** seal guarantees you’ve received the blend of 12 full-spectrum vitamins, mangosteen superfruit and organic aloe in every serving.*

THE SCIENCE OF MINERALS:

Your physical well-being can be more directly dependent upon the minerals you take into your body than almost any other factor.

- The body cannot survive without nature’s fundamental minerals, yet it cannot manufacture them. They must be obtained from the diet or through supplementation.
- Modern-day diets may lack the appropriate balance of minerals due to over-processed foods and mineral-depleted soils*.
- Minerals are needed for energy production, protection from free-radical damage and other vital functions.*
- Minerals help provide a foundation for your optimal health.*
- The liquid form is more bioavailable than caplets or tablets - easy to take and easy for the body to use.

PRODUCT USAGE:

Shake gently before serving. Store in a cool, dry place out of direct sunlight. Use 59 ml (four tablespoons) daily. As with any nutritional supplement, always consult your healthcare professional before consuming if you are pregnant, lactating or if you have any other health condition. Discontinue use if allergic reaction occurs.

FREQUENTLY ASKED QUESTIONS:

Why supplement with Vemma?

The answer is simple - Vemma is a complete, ultra-premium liquid formula that gives your body the nutrients it needs for peak performance*. It provides superior nutritional ingredients that work quickly to support the 63 trillion cells in the human body and help protect them from the aging effects of free radicals.* Every day your body's cells are being bombarded by these unstable molecules, removing electrons from healthy cells and destroying them in the process. Vemma is your first line of defense against this destructive process.

Is it true that xanthones are the most studied group of compounds found in mangosteen?

It is true. This particular class of plant nutrients are highly, biologically active and unique because they possess very potent antioxidant properties.* Of all the known sources for xanthones, the mangosteen provides some of the highest amounts found in nature.

What is organic aloe vera and why is it important?

Aloe vera is a plant that originated in Africa and has been used for centuries because of its versatility and life-supporting properties.* It contains several important nutrients, including life-giving minerals, vitamins and polysaccharides. Each bottle of Vemma contains organic aloe vera, which delivers multi-faceted benefits that can have a positive impact on one's daily dietary regimen.*

Why is organic decaffeinated green tea important?

Green tea is well studied and documented for its traditional uses.* Organic decaffeinated green tea is added to Vemma because of its additional hydration and antioxidant benefits, without tannin. We use a decaffeinated source since caffeine consumption may not be appropriate for every Vemma consumer.

*Food supplements should not replace a varied and balanced diet and a healthy lifestyle.
